

**TERRA HUMANA E.V.**  
SUPPORTING GOOD QUALITIES

### **Our organisation**

We are a small non government organisation which supports people and social institutions in Burma, Nepal and Thailand. Terra Humana was founded after several journeys all over asia. We were always deeply impressed by the great hospitality everywhere. But quite often the people cannot fullfill essential needs without help from others. We realised that we don ´t need a lot of money to give them a better perspective in life. The good feeling, to invest a small amount of our salary for poor people, motivates us every day again.

### **Our goals**

We invest in social institutions, education and take care of poor families. The personal contact and the transparency of our activities are very important for us. Trustworthy local people are helping us where ever they can. We concentrate our activities only on a few projects which we know well, in order to support them very efficiently. This offers you the possibility to know the people better or maybe get in touch with them one day as well.

Our projects will receive the full amount of your financial help, because we work on purely voluntary basis.  
Every help will make a change!

Registered Charity

## OUR PROJECTS

### Burma (Myanmar)

#### Christian Orphanage in Loimwe

The Sisters of Charity are helping families who are in serious difficulties and they host about 50 orphans. We want to support them in order to extend their facilities.

#### Lepra Hospital in Keng Tung

About 600 patients are living in miserable conditions at the city limit of Kengtung. We want to improve their situation and give them a perspective

#### Home for handicapped people in Taunggy

The Sisters of Charity are also helping here to support people who would have no chance to survive within normal society. Medical education and providing the right medicine are our main goals in Taunggy.

#### Shelter for child prostitutes in Tachilek

Street kids are often caught up in illegal dealings. We support this new and small shelter for helpless girls at the burmese border to Thailand.

### Nepal

#### Education and Rural Village Development

Children of lower casts are getting sponsorships for tuition fees at school. We also sponsor village schools with materials like books and organise health camps in urban regions.

### Thailand

#### Orphanage in Mae Sai

This orphanage in the north of Thailand was build with money from "Hope for Life". Today it is a home for 80 street kids which provides them with food, medical care and education.

A great idea which we want to support as well.

## HOW CAN YOU HELP?

### Membership at Terra Humana e.V.

From 20 Euro per year you can become a member and share your ideas with us. We are happy to welcome you!

### Donations

Your donations are supporting our activities and can be linked to a specified project which you want to benefit.

### Project Sponsorships

A symbolic sponsorship for a child is something very personal. You can follow the progress of life and education of a child and finance accomodation, food and education from only 10 Euros per month.
